VOLUNTARY REGISTRATION OF SEEDLESS MANDARIN ACREAGE (as outlined in Title 3 CA Code of Regulations sections 1430.54 – 1430.57)

For notification of apiary location(s) within 2 miles of any Registered Seedless Mandarin planting from March 1 through May 31
(NOTE: this time period is NOT the same as Citrus Bloom.)

If you choose to participate in the Voluntary Registration of Seedless Mandarin acreage, the location(s) of your Seedless Mandarin plantings must be registered between January 1 and January 31 in order for you to be notified of any apiaries in Tulare County that are within a 2- mile radius of your Seedless Mandarin plantings. **NO NOTIFICATION OF APIARY LOCATIONS WILL BE GIVEN IF THE SEEDLESS MANDARIN LOCATIONS ARE NOT REGISTERED!** Please be aware that notification of apiary locations is limited to apiaries whose owners have agreed to a Limited Release of Information and that there may be Beekeepers with apiaries within the 2-mile radius who do not wish to release their location information.

If desired, please complete the Locations Form completely. A new form should be submitted any time there is a change in the information required on the form. Permit information **will NOT** automatically register those sites for the purposes of apiary notification. However, your pesticide permit must list the site as "Seedless" in order to register it for apiary notification. Section 1430.54(b) defines seedless mandarins as "mandarin or tangerine varieties that do produce seeds when fertilized by pollen of the same plant or another plant of the same genotype". The Commissioner will rely upon the most recent information provided by the Seedless Mandarin grower from previous registrations unless it is updated on this form.

Registration Fee is \$10 per calendar year for up to and including 5 years.

Please register me for ____ years.
